This sentence is surrendered by BR

A first level ordered list with type "I":

- Item 1
- Item 2
- Item 3

Text in bold. **This is a red span**

<HR> with the default style:

Below, another <HR> but with different style: left=120, width=300, color='red', margin=[0,20,0,20], thickness=2

| Region | Result Q1 | Result Q2 |
|----------|-----------|-----------|
| Americas | +3% | +6% |
| Europe | +3.9% | +5% |
| Asia | +1.5% | +0.9% |

| Header Column 1 | Header Column 2 |
|-----------------|-----------------|
| Value Column 1 | Value Column 2 |

| Col A | Col B | Col C | Col D |
|----------------------------------|--------------|---------|--------------|
| Cell A1 | Cell B1 & B2 | Cell C1 | Cell D1 & D2 |
| Cell A2 | | Cell C2 | |
| Cell A3 | Cell B3 & C3 | | Cell D3 |
| Cell A4 & A5 & B4 & B5 & C4 & C5 | | | Cell D4 |
| | | | Cell D5 |

| | | |
|--|-------|-------|
| Table with widths=[100,"*","auto"] and heights=40 using "data-pdfmake" attribute | | |
| Cell1 | Cell2 | Cell3 |

| | | |
|--------------------------|------|-----------------------|
| Cell with red background | Cell | Cell with red borders |
|--------------------------|------|-----------------------|

Table autosized based on style "height" and "width" using "tableAutoSize:true" option:

| | |
|--|-----------------------------|
| height:100px / width:250px | height:100px / width:'auto' |
| Here "<td width='100'">" will use 250px for the width because we have to use the largest col's width | height:200px / width:'auto' |

Change the table's layout (header with red border, body with blue border):

| Header A | Header B |
|----------|----------|
| A1 | B1 |
| A2 | B2 |
| A3 | B3 |

An image:

Bold italic centered text

text "bold" text "***bold & italic***" text "***bold & italic & red***" text "***bold & italic***" text "bold"

Below we preserve the spaces:

this is just an example.

And support for FONT tag.
